Thermal Film

Synthetic top-coated BOPP
thermal film for demanding label use

The new thermal film is targeted for demanding industrial, healthcare and research environments.

- Excellent resistance against a wide range of substances, such as water, plasticizers, oil, fat, solvents and heat
- Good dimensional stability
- Superior pre-printability in conventional printing methods (offset and flexo)
- Perfectly crisp and clear thermal print image
- Produced without the use of BPA or BPS

Quality you can trust

Jujo's thermal film grades can stand harsh environments offering peace of mind.

TECHNICAL PROPERTIES

Grade	Weight	Thickness	Sensitivity
AS55KT-LF	62 g/m ²	74 µm / 2.91 mils	•••
AS60KT-LF	68 g/m ²	83 µm / 3.27 mils	•••
AS70KT-LF	72 g/m ²	98 µm / 3.86 mils	•••
