

# JujoL-KTLH-76™

## One paper – several uses

The thermal top-coated JujoL-KTLH76™ is the multipurpose top-coated label face material grade from Jujo Thermal.

- **Excellent all-round top-coated grade**
- **Ideal choice for various demanding thermal label applications such as retail, food, transport and logistics**
  - even for deep freeze use
  - at an affordable cost
- **Well-balanced technical profile:**
  - superior thermal print quality and fine texture
  - superb printed image stability
  - excellent resistance properties
  - good wet strength
  - superior pre-printability (offset and flexo)

### Protection against adhesive migration

JujoL-KTLH-76 has full reverse side barrier for strong protection against adhesive migration.

### Technical properties

Basis weight: 76 g/m<sup>2</sup>

Thickness: 83 µm

Sensitivity: ●●●

Image stability: 12 years in correct storing conditions for thermal papers

Produced without the use of BPA or BPS.
